

## HAND HELD METAL DETECTOR MODEL: 102B

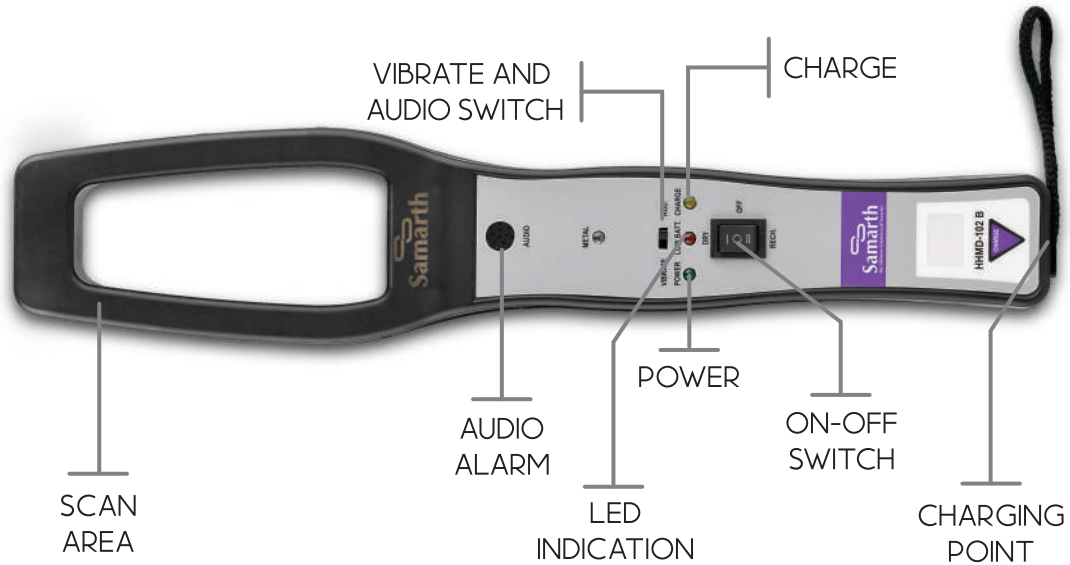

### Signals You Trust

The **Hand Held Metal Detector – 102B** sets a new standard in security screening. Designed with comfort and precision in mind, it combines advanced detection technology with intuitive operator alerts for effortless use.

- Detects **all types of metals** (ferrous, non-ferrous, alloys) with exceptional sensitivity
- Fully compliant with the **latest international security standards**
- Built with **high immunity to external interference**
- Lightweight, ergonomic design for **extended use without fatigue**
- Clear audio and visual signals for **fast, reliable screening**

Whether at airports, stadiums, or high-security facilities, the 102B delivers. This new 'Generation Alpha' detector is engineered to deliver unmatched reliability and performance, ensuring safety with confidence in demanding security environments, making it ideal for airports, railways, malls, public events, and high-security facilities.

Parameter	HHMD 102B
Detection	Detects any metallic objects (ferrous, non-ferrous and alloys)
Power Source	Rechargeable & dry battery pack
Alarm Indications Facility	Audio, Visual & Vibration alarm facility
Search Coil Area	(L x W) (116 x 82.3) mm
Construction	ABS/unbreakable body in die casted mould
Operating Temperature & Humidity	- 20° C to + 65° C with RH 95% non-condensing
Weight	335 gms.
Colour	Black
Dimensions	(L x W x H) (395 x 50 x 30) mm
Packing Details (Dimension)	(L x W x H) (400x 100 x 45) mm approx.
Packing Details (Weight)	395 gms.

Product specifications may be changed without prior notice for improvement in quality and performance.
